

Quality, Food Safety and Environmental Management

RODENAS & RIVERA, S.A., whose main activity is the processing of plastic materials, considers that one of the key factors for running a company is Quality and Food Safety, its products and services, and furthermore is committed to the protection and conservation of the Environment, under the adequate control of the environmental aspects, produced within the production process of our products, from the raw materials to the final product and sub-products, given that these are intrinsically interconnected with the environment.

RODENAS & RIVERA, S.A. is entirely responsible for the Quality and Safety of our products and services, as well as for the proper environmental management, and must ensure that each of these processes:

- **Meet the needs of use and the expectations of our clients and other interested parties.**
- **Comply with the applicable laws and regulations**, as well as other requirements which are taken out under contract.
- That we are committed to **manufacturing safe and legal products**, meeting the specified quality.
- Assuming this **responsibility towards our clients**
- Sustained development awareness, that is, we are committed to the prevention of environmental pollution.
- Promoting minimisation of the use of raw materials and energy sources, as well as in the generation of all types of waste in current and future operations, up to economically viable minimum levels according to the nature, scale and environmental impacts.
- Maintain internal staff trained and updated as regards this policy, as well as making it publicly available, of all interested parties.
- Continuously support the use of environmentally friendly products as well as the reuse and/or recyclability of the sub-products process.
- Are obtained at a competitive price with an acceptable profit.

RODENAS & RIVERA, S.A. understands that the non-compliance with only one of these factors is sufficient to forfeit the advanced position that the company holds in the market.

For all these reasons, RODENAS & RIVERA, S.A. encourages the thinking based upon risk and bases its future development in a policy of **CONTINUOUS IMPROVEMENT, FOOD SAFETY AND ENVIRONMENTAL PERFORMANCE** policy in order that, OUR COMPANY be a competitive company and Quality leader in its Sector.

It is, therefore, the management's objective to document, implement and maintain this policy up to date, involving all employees of the Company. In this regard, this policy will serve to set and review the organisation's objectives.
